

Policy: 3050
Procedure: 3050.01
Chapter: Infection Control
Rule: Medical Isolation

Effective: 08/06/07
Replaces: 3300.07
Dated: 11/01/1996

Purpose:

Arizona Department of Juvenile Corrections (ADJC) Division of Program and Institutions establishes measures and practices intended to prevent the spread of communicable diseases by prescribing isolation for medical purposes.

Rules:

1. Only the **MEDICAL PROVIDER OR DESIGNEE** in consultation with the Superintendent or designee shall order the type and location of isolation needed.
2. All **EMPLOYEES** shall:
 - a. Follow the guidelines for Interpandemic Alert Period and Pandemic Alert Period in accordance with Procedure 4008.01 Pandemic Event Protocol;
 - b. Follow the guidelines for Medical Isolation:
 - i. Daily care for a juvenile in medical isolation shall include, but not be limited to:
 - ii. Medical care by the Health Unit staff as required;
 - iii. Daily cleaning of the isolation room floor and surfaces with a 1:10 bleach solution or approved antiseptic alternative;
 - iv. Meals served to juvenile on disposable dishes;
 - v. Daily disposal of paper products in plastic bags;
 - vi. Laundering of juvenile's linen separate from other juveniles' laundry;
 - vii. Only a medical provider or designee can release a juvenile from medical isolation;
 - viii. Upon discharge from medical isolation, the room shall be stripped and all surfaces washed with a 1:10 bleach solution or approved antiseptic alternative.
